Arkiv 4

ARKIV 4 originates from the abundant Archives of GU. Originally a coat fabric made in 1959, it was revived as an upholstery fabric in 2012 and now emerges With New colours by Anemone Wille Våge. The Rich texture springs from the twisting of several unique yarns spun at the mill. The combination of twisted yarns and radiant colours makes it a beautiful enhancer of sofas and Chairs. Archive 4 has a high content of wool, which makes it naturally fire resistant and very durable
